

POWERPACT™
AUTOMATIC STANDBY GENERATOR

7 kW

The Most Affordable Home Standby Generator on the Market

THINK YOU CAN'T AFFORD AN AUTOMATIC STANDBY GENERATOR? YOU CAN.

Generac has engineered a home standby generator that makes residential backup power more affordable than ever, backed with the quality and reliability that makes Generac the leader in standby power. If you only need to protect your essential circuits and thought a portable generator was the best option for your money, compare the benefits of the Powerpact standby generator.

POWERPACT VS. PORTABLE

FEATURE	7KW Powerpact	7000 Watts PORTABLE
Protection	Automatic 24/7 hands-free operation	Manual start-up
Fuel	Continuous LP or natural gas, easy field fuel conversion	Refuel with gasoline as needed
Convenience	Permanently installed, always ready	Set up for every outage with extension cords
Weather Proof	Galvaneel steel enclosure sits outside as close as 18" to the home	Not recommended to run in the rain

Cover all your essential circuits:

7 KILOWATTS

**TRUEPOWER™
TECHNOLOGY**

Delivers best-in-class power quality with less than 5% total harmonic distortion for clean, smooth operation of sensitive electronics and appliances.

- Prepackaged system available – 7 kW standby generator is prepackaged with a 50 Amp transfer switch featuring an eight circuit load center including breakers, available with or without whips
- Generac OHV engine is designed for reliability and long life
- Quieter than a standard portable generator
- Digital controller with LED light status and fault indicators
- Three of the four sides are easily removeable for simple service and maintenance access
- 3-year limited warranty

SPECIFICATIONS:

	Model #	6518	6519	6561
	Included in package	8 circuit transfer switch with whips	8 circuit switch without whips	unbundled
Rated maximum continuous power capacity (LP)	7 kW*	Automatic voltage regulator w/ over voltage protection	Standard	
Rated maximum continuous power capacity (NG)	6 kW*	Automatic low oil pressure shutdown	Standard	
Rated voltage	240V	Overspeed shutdown	Standard	
Main line circuit breaker	30 Amp	High temperature shutdown	Standard	
Rated AC frequency	60 Hz	Overcrank protection	Standard	
Battery requirement (not included)	U1, 300 CCA	Sound output in dB(A) at 23' (7m) with generator operating at normal load	69	
Fuel Consumption @ 1/2 load NG ft ³ /hr	73	Safety fuse	Standard	
Fuel Consumption @ full load NG ft ³ /hr	117	Warranty	3-year limited	
Fuel Consumption @ 1/2 load LPG ft ³ /hr (gal/hr)	26.2 (0.73)	Dimensions: L" x W" x H"	36 x 27 x 25 (915 x 676 x 640)	
Fuel Consumption @ full load LPG ft ³ /hr (gal/hr)	46.8 (1.30)	Weight (lbs./kilos)	360/163.3	
2.5 Amp timed battery charger	Standard	Digital LED indicators	Simple user interface for ease of operation	

*Rating definitions - Standby: Applicable for supplying emergency power for the duration of the utility power outage. No overload capability is available for this rating. (All ratings in accordance with BS5514, ISO3046 and DIN6271). * Maximum wattage and current are subject to and limited by such factors as fuel Btu content, ambient temperature, altitude, engine power and condition, etc. Maximum power decreases about 3.5 percent for each 1,000 feet above sea level and also will decrease about 1 percent for each 12° C (10° F) above 15.5° C (60°F). Not for sale in California.

Global Dealer Network

Generac's commitment to service includes scheduled maintenance programs, warranty assistance and emergency service to ensure that Generac customers are never left powerless. The largest global dealer network has factory trained technicians on staff and maintains large inventories of Generac parts, components and accessories. Find a dealer near you at generac.com.
